

Valley Dogs
COACHING PROGRAM

The Details!

Why should I join the coaching program?

The truth is, if your dog's behaviour and training issues were easily solved you wouldn't be reading this. You would have picked up a few tips online or from a group class and you'd be sorted by now.

As part of your coaching program we will dig into the real reasons your dog is facing the struggles they are. We'll look at physical and mental health, breed specific outlets and meeting their needs. Getting to the root of what's actually causing your dog's issues. Then once we have that sorted we can layer in the training and obedience elements you'll need to navigate life together successfully.

IDEAL FOR HIGH ENERGY AND WORKING BREEDS

Problem behaviours in high energy and working breed dogs often stem from a lack of suitable outlets, clarity and mental stimulation in their lives. Puzzle games and walks round the block won't fix that. Neither will simply 'telling' them what do.

However, it doesn't have to be as complicated as you think it might be. Given that your dog should be sleeping for up to 18 hours a day that doesn't actually leave you with much of it to fill, you just have to do the right things!

COMMON PROBLEMS

- Pulling on lead
- Lack of recall
- High prey drive
- Unsettled at home
- Reactivity to dogs and people
- Bad experiences leading to fear and frustration

We will address any and all of these as part of the coaching program.

WHO I WORK WITH

I work with owners who are committed to solving their dogs behaviour problems, in order to improve both theirs and the dogs life. It's not all about them or the dog, it's a team effort usually with compromises on both sides.

WHAT YOU CAN EXPECT

Genuine personal attention, there is a maximum of 20 teams in coaching at any time. You won't be judged for things you have or haven't done now or in the future. Support from someone who gets it and a community working towards similar goals.
