Valley Dogs

TRAINED FOR YOU

The Details!

What is trained for you?

When you hire a plumber you don't expect them to teach you how to fit the pipes, you just want to walk into the bathroom and have the taps work right? This is me training your dog for you a bit like a plumber fixing your taps.

Unfortunately it's not quite as simple as me taking your dog and 'fixing' everything but with more skilled handling and experience I can take shorten the timescale of their training and hand things over to you in a much better place than you started out. This service suits busy people, people looking for faster results and those who have difficult relationships with their dogs which need some help to repair. It's also ideal for owners with physical limitations.

WHAT SORT OF DOGS CAN TAKE PART?

I am primarily able to help with problems that happen outside the home. Your dog will also need to be comfortable coming away to train with me, although we will do an introduction session with you present.

Sessions will take place either direct from your door or if your dog is comfortable with travel in the van I'll pick them up and take them to a suitable training location based on the outcomes we are training for.

COMMON PROBLEMS

- Pulling on lead
- Lack of recall
- High prey drive
- Reactivity to dogs and people
- Bad experiences leading to fear and frustration

I can help with any of these issues as part of trained for you.

WHO I WORK WITH

I work with owners who are committed to solving their dogs behaviour problems, in order to improve both theirs and the dogs life. It's not all about them or the dog, it's a team effort usually with compromises on both sides.

WHAT YOU CAN EXPECT

Kind, sympathetic handling of your dog. I will keep your goals for your dog in mind at all times but I will always work with the dog in front of me and not push them further than they can handle. That's not to say I won't exceed your goals and hopes if your dog is up for it!

I provide regular video updates and progress reports.
